According to the Material & Resource Credits 5.1 & 5.2: Regional Materials guideline of LEED® for New Construction Version 2009 (V3), Use of building materials or products that have been extracted, harvested or recovered within 500 miles of the project site for 10-20% (based on cost) of the total value of the materials in the project. If the quarries or crushing locations are within 500 miles of a project, the above marble chips may help contribute to these credits.
